

The LEKTOR project launches a new community platform on legal issues for e-business

Lexelerator - Legal Information for SMEs in e-Business

The LEKTOR consortium (European Multimedia Forum, Inmark, Firenze Tecnologia, ADI, ITSMA, Prologue International) is pleased to announce the public launch of the **Lexelerator platform**, a result of the **LEKTOR project**, a support action under the IST programme of the 6th Framework Programme of the European Commission.

The Lexelerator, or Legal Knowledge Transfer Accelerator, provides you with a free service of useful **information resources on legal issues in eBusiness** through Web 2.0 tools like a legal Wiki . Furthermore, the Lexelerator allows you to **share your experience** with professionals, business colleagues and public officials via Blogs and a public discussion Forum.

How can you contribute?

As a **reader** you may, of course, consult all Lexelerator content, but you may also rate its most important features. This consists in expressing a qualitative opinion about the platform's usefulness by attributing from 1 to 5 stars to individual pieces of information.

By **registering** yourself and obtaining a username and password, you will get full (read & write) access to the discussion forum as well as the right to tag content and the right to comment. Tagging allows you to add keywords (also in your own language) to Lexelerator content which makes it easier to be found by search engines. Your comments will be welcome in all Lexelerator Blogs and in the Forum.

Finally, if you have legal knowledge yourself, you may want to become a **contributor**. This will allow you to create new WIKI articles as well as to amend existing ones. It will also allow you to contribute news items to all Lexelerator news features (general & specific news, useful links, useful documents, events, catalogue of legislation). Furthermore, as a contributor, you will be able to write your own Blog.

We encourage all persons who have legal knowledge OR practical experience with legal issues to become contributors to the Lexelerator.

If you have a special interest (see for example our Highlight on eTourism), we would be pleased to collaborate with you to open a space dedicated to you and the members of your community. Please do not hesitate to contact us.
